

# TRIMBLE GRADEMAX™ PLUS

FOR TRIMBLE® GCS900 GRADE CONTROL SYSTEM FOR DOZERS

## POWER

**2x**

**2x** the update rate of GNSS data allows the dozer blade to operate more smoothly

**System anticipates grade changes better** which is optimal for complex designs

Ability to grade accurately at **full speed** in high 2nd and low 3rd gear

## PERFORMANCE

Up to **40% faster** over default system settings

Up to **20% faster** than competitive products

Provides **better performance** in every configuration

## PRECISION

**Optimal precision** when grading super elevated curves and intricate designs

Increases measurement data throughput by **10x**

**Automatic blade control** means more consistent and precise grading performance
