

# DEMO THE TRIMBLE GCSFLEX GRADE CONTROL SYSTEM. AND JUST DIG BETTER.

9 out of 10 contractors realize they need machine control after trialing the technology.

Within 1 day the operator will dig better. Within 4 days he will be an expert.

**100%**

Original investment that is leveraged if you decide to upgrade to Trimble GCS900 Grade Control System.

Average time a contractor spends on a demo of the Trimble® GCSFlex™ Grade Control System before deciding they can't work without it.

How much faster an operator works when using Trimble GCSFlex over traditional excavating methods.

Call your nearest SITECH® Technology Dealer for a 10 day trial today.
